

Practical Knowledge

Transferring, moving and exporting files

160318
Martin Dahlö
martin.dahlo@scilifelab.uu.se

Enabler for Life Sciences

- Moving files to and from UPPMAX
- Moving files within UPPMAX
- Compressing files
- Web export

- SFTP
- scp
- rsync

- SFTP – SSH File Transfer Protocol
- Graphical clients
 - Filezilla
 - WinSCP
 - Transmit
 - ...

- Secure copy
 - Widespread, not resumable
- `scp [options] <source> <destination>`

- Secure copy
 - Widespread, not resumable
- `scp [options] <source> <destination>`

```
scp /local/path/file username@remoteurl:/remote/path/
```

```
scp /home/user/file.txt user01@milou.uppmax.uu.se:/home/user01/
```

- Secure copy

- Widespread, not resumable

- `scp [options] <source> <destination>`

```
scp /local/path/file username@remoteurl:/remote/path/
```

```
scp /home/user/file.txt user01@milou.uppmax.uu.se:/home/user01/
```

- Or the other direction..

```
scp -r user01@milou.uppmax.uu.se:/home/user01/results/ /home/user/
```

- `rsync [options] <source> <destination>`
 - Needs a server, resumable, checksums

- `rsync [options] <source> <destination>`
 - Needs a server, resumable, checksums
- `-tP`
 - Preserve timestamps, show progress

- `rsync [options] <source> <destination>`
 - Needs a server, resumable, checksums
- `-tP`
 - Preserve timestamps, show progress
- `-rtP`
 - Recursive, preserve timestamps, show progress

- `rsync [options] <source> <destination>`
 - Needs a server, resumable, checksums
- `-tP`
 - Preserve timestamps, show progress
- `-rtP`
 - Recursive, preserve timestamps, show progress
- `-nrtP`
 - Dry run of `-rtP`

- **rsync [options] <source> <destination>**
- **-tP**
 - Preserve timestamps, show progress
- **-rtP**
 - Recursive, preserve timestamps, show progress
- **-nrtP**
 - Dry run of -rtP

File

```
rsync -tP /home/user/file.txt user01@milou.uppmax.uu.se:/home/user01/
```

Folder

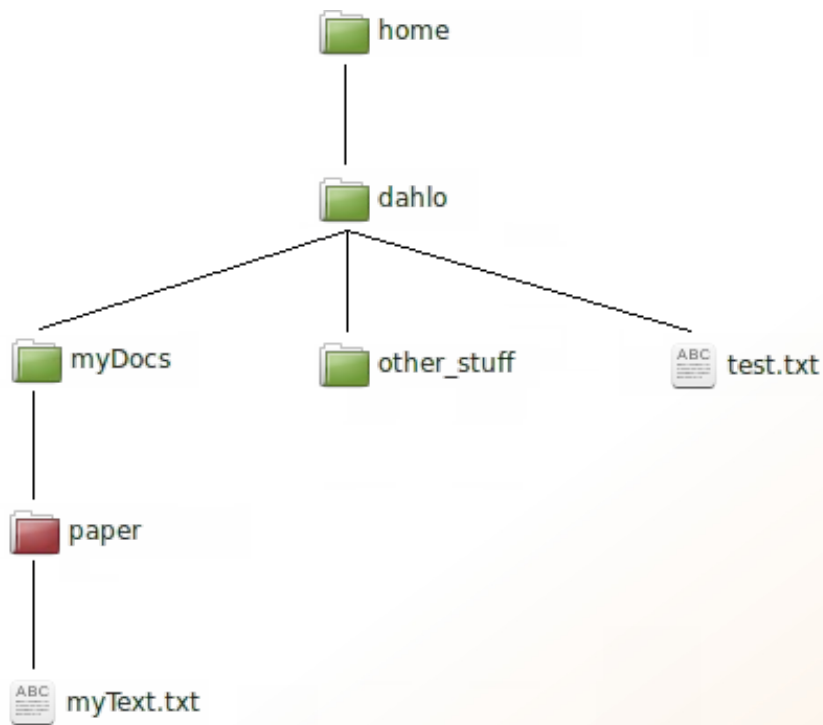

```
rsync -rtP /home/user/datadir/ user01@milou.uppmax.uu.se:/home/user01/
```

Within UPPMAX

- cp
- mv
- rsync

- Copy a file

cp <name of original> <name of copy>

- Copy a file

cp <name of original> <name of copy>

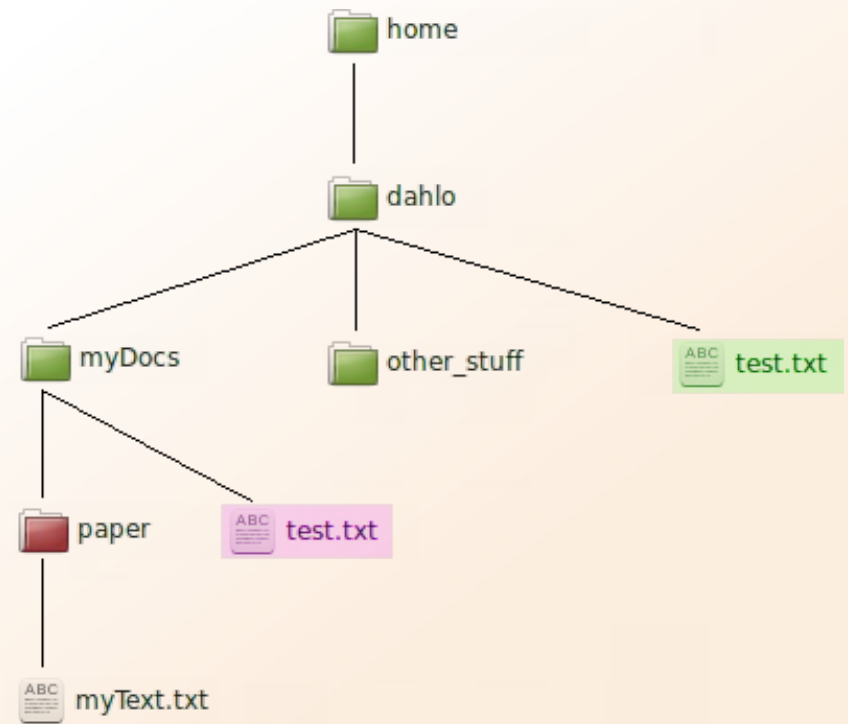

cp myText.txt copy_of_my_text.txt

- Copy a file

cp <name of original> <name of copy>

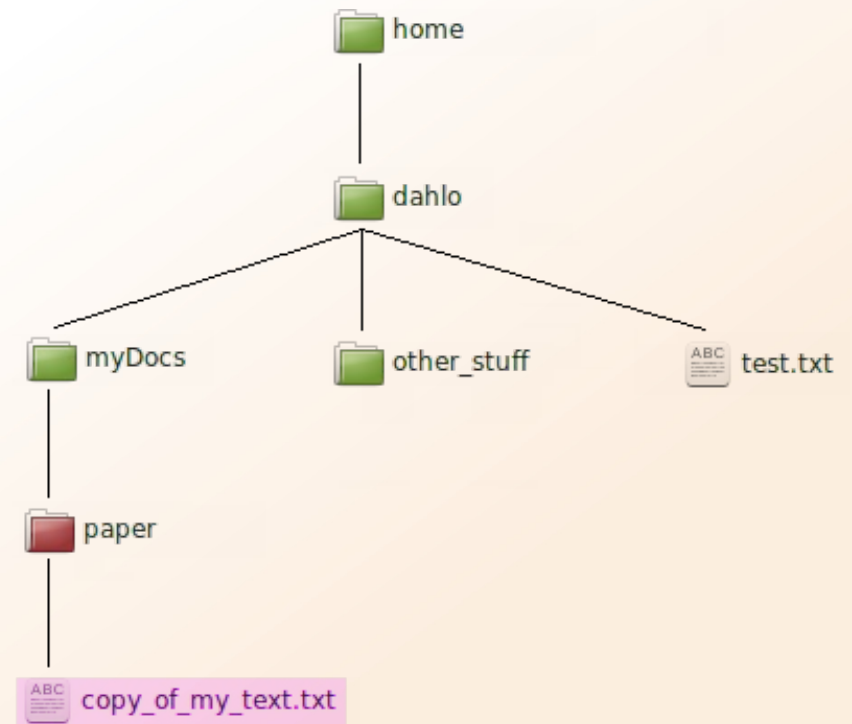

cp /home/dahlo/test.txt ../../myDocs/

- Move a file

`mv <name of original> <name of copy>`

`mv myText.txt copy_of_my_text.txt`

- Move a file

`mv <name of original> <name of copy>`

`mv /home/dahlo/test.txt ../../myDocs/`

- **rsync [options] <source> <destination>**
- **-tP**
 - Preserve timestamps, show progress
- **-rtP**
 - Recursive, preserve timestamps, show progress
- **-nrtP**
 - Dry run of -rtP

File

```
rsync -tP /home/user01/file.txt /proj/b2016999/
```

Folder

```
rsync -rtP /proj/b2010000/datadir/ /proj/b2016999/private/
```

- Many different formats
 - tar?
 - gzip
 - bzip2

- Many different formats
 - tar?
 - No compression (can be combined with gzip)
 - Many files → single file
 - gzip
 - bzip2

- Many different formats
 - tar?
 - No compression (can be combined with gzip)
 - Many files → single file
 - gzip
 - Fast
 - Not "blocked"
 - bzip2

- Many different formats
 - tar?
 - No compression (can be combined with gzip)
 - Many files → single file
 - gzip
 - Fast
 - Not "blocked"
 - bzip2
 - Slow (~6x), but can be parallelized with **pzip2**
 - Blocked
 - Compresses slightly more than gzip

- Many different formats

- tar?

- ```
tar -czvf archive.tar.gz /path/to/files/
```

- (Create, Zipped, Verbose, File)

- gzip

- bzip2 (pbzip2)

- Many different formats

- tar?

- ```
tar -czvf archive.tar.gz /path/to/files/
```

- (Create, Zipped, Verbose, File)

- gzip

- ```
gzip sample.fastq
```

- bzip2 (pbzip2)

- Many different formats

- tar?

- ```
tar -czvf archive.tar.gz /path/to/files/
```

- (Create, Zipped, Verbose, File)

- gzip

- ```
gzip sample.fastq
```

- bzip2 (pbzip2)

- ```
bzip2 sample.fastq
```

- ```
(pbzip2 sample.fastq)
```

- Many different formats

- tar?

- ```
tar -xzvf archive.tar.gz
```

- (eXtract, Zipped, Verbose, File)

- gzip

- bzip2 (pbzip2)

- Many different formats

- tar?

- tar -xzvf archive.tar.gz**

- (eXtract, Zipped, Verbose, File)

- gzip

- gunzip sample.fastq.gz**

- bzip2 (pbzip2)

- Many different formats

- tar?

- tar -xzvf archive.tar.gz**

- (eXtract, Zipped, Verbose, File)

- gzip

- gunzip sample.fastq.gz**

- bzip2 (pbzip2)

- bunzip2 sample.fastq.bz2**

- (pbunzip2 sample.fastq.bz2)**
